ABSTRACT

The **Fragrances and Perfume Store** is a web-based application designed to sell a variety of perfumes. It allows customers to easily browse, purchase, and get detailed information about perfumes. The store is divided into different categories like fragrances for men, women, unisex, and more, with three main modules: **Admin**, **User**, and **Seller**. The Admin manages the overall store, while users can browse and make purchases, and sellers can list and manage their perfume products. The goal of the website is to provide users with a seamless and enjoyable online shopping experience for high-quality perfumes.

Technologies Used:

- **Operating System:** Windows-based system
- **Frontend:** HTML, CSS, Bootstrap, JavaScript
- **Backend:** PHP
- **Database:** MySQL
- **Browser:** Any modern browser
- **Web Server:** XAMPP
- **IDE:** Visual Studio Code

Modules and Features

1. User Module

- **Registration/Login:**
 - Users can register or log in to access the website.
- **Browse and Search Products:**
 - Users can search perfumes by category, brand, fragrance type (e.g., floral, woody, citrus), or name.
- **Add to Cart:**
 - Easily add products to a cart for future checkout
- **View Profile/Update:**
 - Users can manage their profiles and update details.
- **Place Order/Cancel Order:**

- Users can place orders and cancel them before shipping.
- **Payment Integration:**
 - Secure payment options via debit/credit cards, PayPal, or other gateways.
- **Forgot Password:**
 - Users can reset their password if forgotten.
- **Order History:**
 - View past purchases and order status.
- **Product Reviews:**
 - Rate perfumes (1 to 5 stars) and write detailed reviews.
- **Gift Customization and Packaging:**
 - Select personalized gift wrapping, themes, and messages.
 - “Send as a Gift” option for direct shipping to others.
- **Skin Sensitivity Questionnaire:**
 - A short form collects data on skin type and allergies to recommend safe perfumes.

2. Admin Module

- **Admin Login/Logout:**
 - Admins can securely log in to manage the platform.
- **Manage Sellers:**
 - Add, edit, or delete seller accounts.
- **Manage Products:**
 - Add, edit, delete perfume products, including their images, descriptions, and pricing.
- **Manage Categories:**
 - Organize products under categories like men’s perfumes, women’s perfumes, unisex perfumes, luxury fragrances, etc.

- **View Feedback and Reviews:**
 - Monitor and moderate user feedback and reviews.
- **Seller Requests:**
 - Approve or reject requests from sellers to join the platform.
- **View Sales Reports:**
 - Monitor overall sales and track performance trends.
- **Manage Custom Perfumes:**
 - Oversee personalized perfume requests and ensure processing.

3. Seller Module

- **Seller Registration/Login:**
 - Sellers can register or log in to manage their product listings.
- **Manage Products:**
 - Add, update, or delete perfume listings.
- **Sales Data:**
 - Track sales performance and view order details.
- **Respond to Reviews:**
 - Interact with customers by responding to reviews and feedback.
- **Communicate with Admin:**
 - Resolve issues or queries with the admin through a secure communication channel.
